following time series in R, which has a slightly irregular/unpredictable  
time interval that I would like to divide to equally uniform time intervals.  
The original time format is as follows: #original time: -1 5.1 -1 5.2 -1 5.4  
-1 5.5 -1 5.9 -1 6.2 -1 6.8 -1 7.3 -1 7.5 -1 7.6 #desired time format: -1 5.0
